# Welcome

Our members are the heart of this Society and developing and enabling the global endocrine community is always at the core of our thinking. We continue to give our members support throughout their careers. Whether it is by funding excellent research through our grant schemes, supporting scientists, clinicians and nurses through our broad range of educational activities or engaging ever more effectively with the public, our main objective remains the advancement of endocrinology and the realisation of its capacity to improve health.

## Stephen O’Rahilly

PRESIDENT,  
SOCIETY FOR  
ENDOCRINOLOGY

DEDICATED TO THE  
PROMOTION OF  
BETTER PUBLIC  
HEALTH SINCE 1946

# Take your place

**By joining the Society for Endocrinology you become part of a global endocrine community with a rich history of scientific and clinical excellence.**

As a member, you will be kept at the **forefront of developments in endocrinology** and are able to benefit from the experience of an unprecedented network of peers, advancing your own professional development.

Many of our members are world-leading endocrinologists; others are just starting out in the field. Regardless of your experience, you will be **supported at every stage of your career** and have the opportunity to be recognised for your contributions to the sector.

Our members share cutting-edge knowledge and best practice in endocrinology. In doing so, they expand their professional networks and build successful collaborations in the UK and worldwide. We recognise that by collaborating within the field and the wider scientific community, we are in the strongest position to **advance endocrinology**.

---

**A world-leading  
authority on hormones**

# Make the most **OF YOUR MEMBERSHIP**

## **Access to career support and grants, including:**

- Travel grants for international events, up to the value of £1,100 per annum
- Early Career grants, up to the value of £10,000

## **FREE online access to all Society journals including:**

- *Journal of Endocrinology*, *Journal of Molecular Endocrinology*, and *Endocrine-Related Cancer*
- The Society's official clinical journal, *Clinical Endocrinology*

## **Discounted publication fees for *Endocrinology*, *Diabetes & Metabolism Case Reports* & *Endocrine Connections***

## **Reduced price print subscriptions to Society journals**

## **Reduced registration fees at Society for Endocrinology meetings and training courses**

## **Exclusive networking opportunities:**

- Meet with your peers from around the world to exchange knowledge and ideas
- Collaborate on key projects, advance your understanding and contribution to the field

## **Regular updates on the latest news and developments within endocrinology, including:**

- Daily and monthly latest endocrine news, dates and deadlines, job vacancies and member services
- Free subscription to *The Endocrinologist*, the Society magazine

# Membership CATEGORIES

## A place for you whatever your career level

.....

### Full Membership

For those involved in endocrine-related research or practice and who are not in training.

### Clinician-in-Training Membership

For anyone who has not yet reached the date of completion of their clinical training.

Clinicians-in-Training are eligible for a reduced subscription rate until completion of training is achieved when they will automatically become Full Members paying the full subscription rate. Also applicable to clinical research fellows and clinicians undertaking a period of scientific research training.

### Scientist-in-Training Membership

For anyone who has not achieved a PhD or for anyone who is less than 10 years post PhD. Scientists-in-Training will automatically become Full Members paying the full subscription rate after 10 years post PhD

### Nurse Membership

For any nurse working in an endocrine-related field.

### Associate Membership

For anyone who earns less than a specified figure, currently set at £25,000 (excluding London weighting). Associate Members are eligible for a reduced subscription rate until the salary ceiling is exceeded when they will automatically become Full Members paying the full subscription rate. Yearly proof of salary is required from your Head of Department.

### Student Membership

Full Members of the Society may nominate eligible students to receive free membership. Full details of the criteria can be found in the membership section online:

[www.endocrinology.org/membership](http://www.endocrinology.org/membership)

If you wish to nominate a student, please send their name and contact details to [members@endocrinology.org](mailto:members@endocrinology.org)

### Unsure which category to apply for?

Contact our membership team for assistance on +44 (0)1454 642202

or email [members@endocrinology.org](mailto:members@endocrinology.org)

# What our **MEMBERS VALUE**

As a world-leading authority on hormones and a major provider of support for endocrinologists, the Society is perfectly positioned to best represent the needs of each of its members throughout every stage of their career.

**‘I am grateful to the Society for Endocrinology for supporting my attendance at the ISH Sydney. I attended many amazing lectures and I had many opportunities to talk about my work with the leading scientists in the field’**

**CONFERENCE GRANT AWARDEE**

# At the Society, we realise that your priorities change as your career progresses.

Here's what our members say they value most about their membership to the Society

Student	Career Starter	Career Builder	Mid Career	Late Career	Retirement
Identifying your options Getting an appropriate education Planning your early career	Finding your first job Learning the ropes Spotting your next career milestone Choosing your specialism	Achieving results and independence Gaining recognition Building management experience Looking for advancement	Networking Leading a team Being an expert Considering a new career path Avoiding obsolescence	Maintaining knowledge Assuming a consultative role Taking on management responsibilities Seeking others as experts Preparing for retirement	Passing on knowledge Keeping 'in the loop' Mentoring at your own pace

## CAREER-LONG SUPPORT:

Regular updates in endocrinology  
FREE access to Society journals  
Networking opportunities at a large array of events  
Influential roles through steering groups, debates and lobbying

## EARLY IN YOUR CAREER:

Undergraduate funding and prizes  
Summer Studentship programme  
FREE registration at SfE BES

## TAKING THE NEXT STEPS:

Funding to buy equipment or visit other settings  
Enhanced awareness of career opportunities  
Grants to gain practical skills  
Opportunities to develop collaborations  
Short-term salary funding  
Funding to attend conferences  
Advice from Career Development Workshops

## MAKING YOUR MARK:

Clinical Case Prizes to recognise outstanding work  
Exposure through *The Endocrinologist* and Society journals  
Presentation at the annual SfE BES conference  
Prestige built through prizes and medals

## LEADING THE WAY:

Grants to host endocrine seminars  
Public engagement funding for outreach activities  
Support through the Clinical Peer Review scheme  
Collaboration with your peers

## PASSING THE BATON:

Mentoring the next generation  
FREE registration at the SfE BES conference for Senior and Honorary members

## Are you changing career, on a career break or retiring?

The Society can provide you with the support you need. Please contact the Membership Team on +44 (0)1454 642202 or email [members@endocrinology.org](mailto:members@endocrinology.org) for more information.

# Leading the way IN ENDOCRINE EDUCATION, RESEARCH AND SUPPORT

## Events and training

Our range of leading educational meetings and training opportunities are designed to support you as an endocrine professional through every stage of your career.

In addition to our renowned annual SfE BES conference, the Society provides a range of scientific, clinical, nurse and career development events and training, aimed at helping you improve your knowledge and further your career in the field of endocrinology.

## Clinical Update

Clinical Update provides essential training for trainees and new consultants in endocrinology and diabetes.

.....

**Programme:** Over a three-year period, the programme covers the national curriculum in endocrinology and diabetes and is indispensable for those preparing to sit the Federation of Royal Colleges of Physicians' Specialty Certificate Examination. The three-day residential course comprises lectures and interactive small group workshops (50 delegates maximum), targeted at specific topics on the curriculum.

**Candidates:** Trainees and newly appointed consultants.

**'The lecturers are excellent in their expert topics. The update is of great help for practical guidance to every endocrinology professional'**

PREVIOUS DELEGATE

## Endocrine Nurse Update

Designed specifically for specialist endocrine nurses, this two-day course provides a comprehensive update on best practice and the latest developments in the endocrine nursing field.

.....

**Programme:** Accredited by the RCN Centre for Professional Accreditation, the three-year rolling programme covers a wide range of endocrine topics relevant to nurses working in the field. The programme offers an interesting and interactive two days, with plenty of discussion opportunities covering local protocols, interesting cases and patient education, as well as networking opportunities with peers from across the UK and Europe.

**Candidates:** Established and new-to-post specialist endocrine nurses.

**'A fantastic update and opportunity to meet lots of other nurses working in the area'**

PREVIOUS DELEGATE

## National Clinical Cases Meeting

Our leading National Clinical Cases Meeting provides an indispensable forum for the exploration and discussion of interesting and notable cases.

**Programme:** Showcasing ten oral communications chosen from high-scoring abstracts, the meeting covers a wide variety of clinical endocrine topics, whilst offering a fantastic opportunity to share professional experiences with peers and senior colleagues within the field of endocrinology.

.....

**Candidates:** Trainees and consultants.

**'A very good forum to present cases'**

PREVIOUS DELEGATE

# SfE BES 2016

Showcasing a cutting-edge scientific programme of basic science, translational research, clinical investigation and clinical practice, SfE BES provides the leading platform for the international endocrinology community to discuss and discover the latest developments, and share in the thoughts and visions of key experts.

Featuring an extensive range of sessions, workshops, plenary lectures and symposia, SfE BES covers translational topics spanning the breadth of endocrinology. Two key sessions are held specifically for nurses, whilst our Early Career Endocrinologists and Senior Endocrinologists benefit from dedicated symposia. In addition, we run a debate, four clinical management workshops, an applied physiology workshop and two education workshops.

**Candidates:** A wide range of scientists, clinicians, nurses and early-career endocrinologists, from all over the world, as well as students interested in endocrinology and the specialist areas of study and practice.

## Career Development Workshop

The Career Development Workshop provides a unique training opportunity for basic scientists and clinician scientists with an interest in pursuing a career in clinical academic or basic scientific research in endocrinology.

.....

**Programme:** The comprehensive three-day programme provides early career researchers with a fantastic opportunity to equip themselves with the tools that they will need for a career in research. The programme is led by newly appointed and established academics and is split into two different tracks each with a different focus. The first track focuses on career planning for PhD students and early post-doctoral scientists and the second track is for those considering applying for fellowships.

**Candidates:** Members who have registered for PhDs or MDs and post-doctoral researchers.

**‘Really, really good, I’ve learnt a lot and feel much more prepared for a career in science’**

PREVIOUS DELEGATE

**‘The go-to endocrine conference to present your science and get vital feedback from leading endocrinologists’**

2014 SfE BES DELEGATE

Keep up to date with the latest Society meeting and event information on the website [www.endocrinology.org/meetings](http://www.endocrinology.org/meetings)

Each year the Society provides more than **£500,000\*** in funding to its members

# Grants, Prizes & AWARDS

Your membership to the Society opens the door to various funding and award opportunities. The Society recognises the benefits that funding brings to the discipline and offers a wide range of grants to members.

## GRANTS

Travel Grants  
UP TO  
**£1,100**

Public Engagement Grants  
UP TO  
**£1,000**

SfE BES Registration Grants  
FREE registration to SfE BES conference

Equipment Grants  
UP TO  
**£10,000**

Undergraduate Achievement Awards  
**£300**  
per year for three years

Practical Skills Grant  
UP TO  
**£1,000**

**NEW!**  
Regional Clinical Cases Meeting Grants  
**£2,000**

**NEW!**  
Themed Scientific Meeting Grant  
**£10,000**

Early Career Grants  
UP TO  
**£10,000**

Clinical Department Visit Grants  
UP TO  
**£1,000**

Summer Studentships for Undergraduate Students  
**£185\***  
\*per week for up to 10 weeks & up to £1,000 for consumables

## PRIZES & AWARDS

---

The Society offers a number of prizes that are intended to engage students, budding scientists and clinicians within endocrinology or with an interest in the specialty

- Clinical Cases Meetings Prizes
- Undergraduate Essay Prizes
- SfE BES Early Career Endocrinologists' Prizes
- Early Career Endocrinologists' Basic Science Prize Lectures
- Early Career Endocrinologists' Clinical Prize Lectures
- Journal Awards

For further information on which Society grants, award and prizes you could be eligible for visit [www.endocrinology.org/grants](http://www.endocrinology.org/grants)

# Publications

## ADVANCE THE PACE OF SCIENTIFIC & MEDICAL RESEARCH

---

A key benefit of being a member of the Society for Endocrinology is free online access to the current content of the Society's four high-impact peer reviewed journals: *Journal of Endocrinology*, *Journal of Molecular Endocrinology*, *Endocrine-Related*, *Cancer & Clinical Endocrinology*.

*Endocrine Connections* and *Endocrinology, Diabetes & Metabolism Case Reports* are open access publications, meaning all published articles are freely available to readers. Members are entitled to discounted publication charges when publishing in these journals.

## Journal of Endocrinology

Physiology, metabolism and translation

A broad-ranging journal publishing original research articles and reviews from around the world.

Impact Factor\* **3.586**

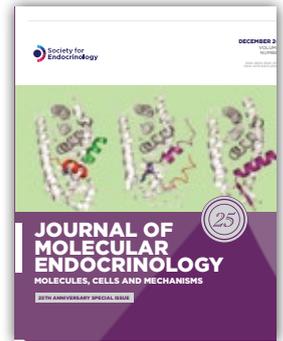

## Journal of Molecular Endocrinology

Molecules, cells and mechanisms

A leading global journal publishing original research articles and reviews from an international authorship.

Impact Factor\* **3.621**

## Endocrine-Related Cancer

Hormones and cancer: from research to therapies

The only high-impact journal linking the disciplines of oncology and endocrinology. The journal publishes reviews and original research papers of exceptional quality.

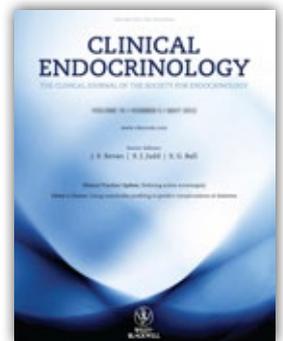

Impact Factor\* **4.907**

## Clinical Endocrinology

The official clinical journal of the Society for Endocrinology, *Clinical Endocrinology* publishes original articles, reviews, case reports and investigations.

Impact Factor\* **3.353**

## Endocrinology, Diabetes & Metabolism Case Reports

Facilitating discovery, connections and comparisons.

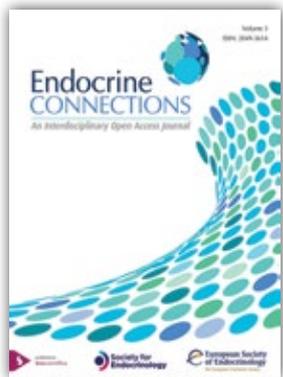

Endocrinology,  
Diabetes & Metabolism  
**CASE REPORTS**

In collaboration with a number of other societies, the Society for Endocrinology endorses *Endocrinology, Diabetes & Metabolism Case Reports*, an online information resource publishing and linking together case reports on common and rare conditions in all areas of clinical endocrinology, diabetes and metabolism. All articles include clear learning points which readers can use to inform medical education or clinical practice. Society members are entitled to discounted open access publishing fees. Online-only, open access.

## Endocrine Connections

An interdisciplinary open access journal

*Endocrine Connections* publishes original quality research and reviews in all areas of endocrinology, with a focus on papers that have relevance to its related and intersecting disciplines and the wider biomedical community. *Endocrine Connections* is jointly owned by the European Society of Endocrinology and the Society for Endocrinology: working together to further research, education and clinical practice in endocrinology. Society members are entitled to discounted open access publishing fees. Online-only, open access.

For further information visit [www.endocrinology.org/journals](http://www.endocrinology.org/journals)  
Your free online access as a member is available via the  
Members' Area on the Society's homepage.

\*figures shown are the 2013 Impact Factors

# Our goal is for everyone to have a better understanding of hormones and to be able to lead healthier, happier lives through that knowledge

From great people come great things and the Society's members have made a number of major discoveries that have had, and continue to have, a far-reaching impact on how we prevent endocrine-related illnesses and care for and treat those who suffer from them.

Our values and goals are simple. They can be achieved by upholding our three guiding principles which underpin all that we represent and everything that we do:

## Engage

We engage our members to build strong links within our sector and the wider scientific community, patient groups, policy-makers and the public.

## Support

We support our members at every stage of their career through grants, training, learning resources and networking opportunities.

## Advance

We advance scientific and clinical endocrine education and research to improve health and knowledge.

# Help us to grow **'THE VOICE' OF ENDOCRINOLOGY**

As a Society member, you play a significant role in helping us to strengthen and build our global endocrine community and continue to support endocrinologists like yourself throughout every stage of their career

Growing the membership enables us to serve you better and extend the benefits that your membership brings. **A bigger Society** means a stronger profession, greater expertise which we can all draw upon, and an increased visibility and influence in our advocacy efforts.

## Refer a **Colleague**

Do you know someone who would benefit from becoming part of this community?

Send their details to  
[members@endocrinology.org](mailto:members@endocrinology.org)

## Refer a **Student**

Full Members of the Society are eligible to nominate students to receive FREE membership.

Simply email us  
your students' names to  
[members@endocrinology.org](mailto:members@endocrinology.org)

## APPLICATION FOR MEMBERSHIP

1. Please check your entries and ensure that the form is signed by proposer and applicant
2. Email, post or fax the form to the Society, depending on your method of payment

**Society for Endocrinology**  
22 Apex Court  
Woodlands | Bradley Stoke

## PROFESSIONAL RESPONSIBILITY

As part of your membership you will have web access to our Members' Area where you will be able to network with other members of the Society. Please be aware that all personal information transmitted through this website is for the sole use of members only and on no account may your password or any other personal information be divulged or misused. If you fail to adhere to our terms and conditions, we may terminate, at our sole discretion, your access to this website. For more details please go to [www.endocrinology.org](http://www.endocrinology.org)

I declare that the information I have supplied on this application is correct and I agree to abide by the Society for Endocrinology terms and conditions.

SIGNATURE OF APPLICANT: \_\_\_\_\_ Date \_\_\_\_\_

## PROPOSER

Your application must be proposed by a current member of the Society.

NAME OF PROPOSER: (please print) \_\_\_\_\_

SIGNATURE OF PROPOSER: \_\_\_\_\_

- I do not know a current member of the Society for Endocrinology; please find enclosed a copy of my CV along with a letter from my Head of Department verifying my position within the department at the time of application.

## ASSOCIATE MEMBERSHIP DECLARATION

If applying for Associate Membership, please ask your Head of Department to confirm below that you currently have a salary of less than £25,000 pa (excluding London allowance.)

NAME OF HOD: (please print) \_\_\_\_\_

SIGNATURE OF HOD: \_\_\_\_\_

## PRIVACY ISSUES

- From time to time the Society organises mailings on behalf of companies whose products we feel may be of interest to members. Please tick if you would prefer **NOT** to receive such mailings.
- For clinical members only:** The Society receives a number of enquiries from the general public. Please tick the box if you **DO NOT** wish us to release your name and hospital to these enquiries for the purposes of seeking a local referral.

Full details of the Society's privacy policy can be found at [www.endocrinology.org/site/privacy](http://www.endocrinology.org/site/privacy)
