

## Conflict of interest policy – Council and Finance Committee membership – approved December 2017, June 2019

Society for Endocrinology Council and Finance Committee members should not hold a concurrent position on the Council or the Finance Committee of a Bioscientifica client society unless that society became a client of Bioscientifica during their period of office.

Should the need arise, the member will be asked to step down from the Society Council or Finance Committee or delay joining either of those committees until such time as there is no conflict.
